Town Center City Hall Grand Opening Leads Awesome Holiday Festivities

On December 4, 2004 an inspirational grand opening of the City Hall at Town Center was the beginning of a night full of fun-filled festivities to open the holiday season.

The grand opening ceremonies included heart-felt presentations from the Mayor, Commissioners, City Manager, Architect and Contractor.

The City Hall ribbon cutting marked the official welcoming of City residents and businesses to the facility built for service excellence.

The festive celebration continued with the annual Illuminations in Miramar where toy soldiers greeted over 8,000 guests and local schools performed holiday favorites in traditional caroling style. Children had a "cool" time as they played in tons of snow and enjoyed activities fit for a winter wonderland.

An exceptional holiday show began with a

spectacular fireworks display. Live music, talented singers and costumed characters set the stage for the beautiful lighting of the Miramar Holiday Tree.

Guests were treated to a special visit from Santa Claus who traveled all the way from the North Pole to share in the fantastic community event.

City staff planned for this occasion for over 3 months and were on hand every where to ensure that the experience was one to remember.

Shuttle service from both Sunset Lakes Community center and Shirley Branca Park was made available free of charge.

The City of Miramar is determined to serve the community and is already preparing for next year. Families and friends are encouraged to participate in Miramar celebrations and events. They are a blast.
